DRAGEE CONTAINS VALUABLE COMPONENTS FROM LEADING EUROPEAN MANUFACTURERS:

1

DRIED APPLE JUICE CONCENTRATE
(APPLE JUICE)

Fresh squeezed juice contains over 90% water, all liquid is removed from fresh juice to obtain the concentrate, preserving only the most valuable

It improves digestion and the secretion of gastric juice due to dietary fiber and starch

It strengthens bone and cartilage tissue due to the high content of pectin

It puts in a good mood, fills with life energy, staves off vitamin deficiency due to B-group vitamins; A, C, E, PP, H

It replenishes iron stores and prevents the development of anaemia, contains minerals (chlorine, iron, manganese, potassium, calcium, phosphorus, fluorine, copper, zinc, cobalt, iodine)

It contributes to the protection from viruses and bacteria, has a slight anti-inflammatory effect, as it contains ascorbic acid

2

JERUSALEM ARTICHOKE POWDER (ROOT ARTICHOKE)

The valuable traits of Jerusalem artichoke have been known since the 17th century

Iron, contributing
to strengthen the
protective functions
of the immune system

Natural prebiotic inulin,
which helps to eliminate
toxins and cleanse
the organism, assimilate
calcium and vitamins

Valuable organic acids,
active plant matters that contribute
to the regulation of blood sugar level,
total cholesterol and triglycerides

3

LACTOSE OR MILK SUGAR

A natural human food product since its first days of life, one of the most sought-after carbohydrates. It is contained in many products, not only dairy products.

It serves as a growth
medium for
gut microflora.

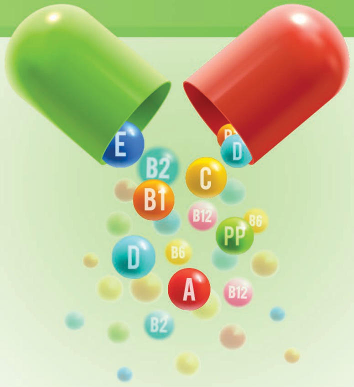
It is essential
to calcium metabolism
(calcium assimilation,
maintenance of teeth)

It contributes to the regulation
of the immune, nervous and
cardiovascular systems

4

VITAMIN COMPLEX

It is balanced on the basis of the daily requirement for vitamins arriving with meal: vitamins C, PP, E, D, B12, B6, B2, B1, A, folic acid (vitamin B9).



VITAMINS A, E, D
stabilize the metabolism in the organism, have a positive effect on the sense of vision, the nervous system, bone density, increase resistive power to infections, improve the condition of the skin and hair.

VITAMIN C
(ASCORBIC ACID)
has a bracing effect on the organism, enhances intellectual and physical abilities, increases resistive power to stresses.

B-GROUP VITAMINS
(B1, B2, B6, B12, B3, B9
are able to influence on the functions of muscles and the nervous system, are necessary for normal brain activity, for high capacity for work, good memory, especially during intense mental work loads, are responsible for improving the oxygen supply, have an effect on the growth and formation of cells and haematopoiesis.

Nutritional value	Per 100 g	Per 1 dragee	% RDI*
