DRYING AND STORAGE

2 STEP

CAREFUL HERBAL COLLECTION

1 STEP

TEA LEAF SELECTION

## 1 STEP

## TEA LEAF SELECTION

THE SUPPLIERS OF TEA LEAVES INCLUDE THE LARGEST PLANTATIONS AND SMALL FARMS FROM THE ISOLATED REGIONS OF INDIA, SRI LANKA, AND CHINA. THE HIGH QUALITY TEA IS BASED ON THE BEST LEAVES, COLLECTED DURING THE MOST FAVORABLE PERIOD.

The legends of tea benefits come to us through the centuries. The diverse healing properties of tea are due to the rich chemical composition of this plant. At the end of the 19th century, the researchers determined only 4—5 main types of substances in tea. At present, this number has increased to 300 types.

## 2 STEP

## CAREFUL HERBAL COLLECTION IN KAMCHATKA

- **MANUAL COLLECTION**

The endemic plants are hidden in the hard-to-reach places, where their collection is possible only by the experienced hand-pickers.

- **RULE OF 1/3**

The pickers should follow the rule of thirds according to which most of the plant is left unimpaired in order to preserve natural plantations.

- **PEAK OF BIOACTIVITY**

The experienced specialists collect herbs during a strictly limited period, when the plants have incorporated the maximum number of useful active substances during the short northern summer.

.....  
**RESULTS:**

**ENVIRONMENTALLY SOUND AND CAREFUL COLLECTION METHOD WITH  
THE MAXIMUM RESOURCE CONSERVATION.**

## 3 STEP

## NATURAL DRYING AND STORAGE

- **INDIVIDUAL DRYING**

Each endemic plant requires a different approach to drying: some plants are subjected to natural drying, others are curled and sun fermented.

- **ONE-SEASON RULE**

In order to maximize the retention of useful properties, each plant is stored unchanged for no more than one season, subject to the humidity and temperature conditions.

---

### RESULTS:

ASSURED FRESHNESS AND MAXIMUM RETENTION OF USEFUL  
SUBSTANCES IN EACH HERBAL TEA.

---

## 4 STEP

## COMPONENT ANALYSIS

- ANALYSIS OF ACTIVE COMPOSITION

Each batch of endemic herbs is tested in the laboratory conditions in relation to the content of active substances.

- RAW MATERIAL SORTING

The herb division into the categories according to the number of active substances allows to accurately obtain the tea with a stable composition and a verified amount of active ingredients in each pyramid bag.

.....

### RESULTS:

YOU CAN BE SURE OF THE EQUAL CONTENT OF ACTIVE INGREDIENTS  
IN EACH TEA BAG.

## 5 STEP

## MULTI-STAGE FILTRATION

Hand-picked and naturally dried herbs must pass an environmentally friendly multi-stage filtration system.

1. ENVIRONMENTALLY FRIENDLY RAW MATERIAL DISINFECTION.
2. FILTRATION OF FOREIGN PARTICLES using laser equipment
3. STEAM TREATMENT FOR MICROORGANISM ELIMINATION

### RESULTS:

- ASSURED SAFETY AND QUALITY OF RAW MATERIALS IN ACCORDANCE WITH THE INTERNATIONAL STANDARDS.
- THE TEA CONTAINS MAXIMUM NUMBER OF VITAMINS, MICRONUTRIENTS AND ANTIOXIDANTS.

## 6 STEP

## BLENDING AND PREPACKAGING

- **COMBINABILITY RULE**

The endemic herbs have a rich active composition, therefore special attention is paid to their compatibility for ensuring maximum safety and synergy effect.

- **GRINDING BEFORE BLENDING**

All plants are ground immediately before blending, which allows them to preserve their natural benefits, as well as increase the contact area with the liquid for quick tea brewing.

- **DISTRIBUTIONAL PREPACKAGING**

The finished blend is packed in pyramid bags using special multi-strand equipment while maintaining a stable fraction of the weight and organoleptic specifications of the tea beverage.

THE PRODUCTION PROCESS MEETS THE WTO,  
ISO AND EUROSTANDARD REQUIREMENTS

# EVERY CUP OF HERBAL TEA MAKES THE PHARMACIST BANKRUPT

### VITAMIN TEA BEVERAGE

#### NATURAL ACTIVE COMPOSITION

It is a rich source of vitamin C and bioflavonoids.  
It is traditionally used in the case of vitamin deficiencies.  
It helps to increase the body's resistance to infectious  
diseases and colds.

- INDIAN BLACK TEA
- HAWTHORN (BERRIES)
- BAY WILLOW (LEAVES)
- HIBISCUS TEA
- SWEET BRIER (FRUITS)
- ROWANBERRIES (FRUITS)
- SHELF FUNGUS (FRUIT TREE)

The beneficial properties of shelf fungus have been known for a long time. Back in the 11th century, Avicenna, the famous Persian physician, described the use of shelf fungus as a medicine.

The 11th century was marked by the first reference to a medicinal shelf fungus in the Russian chronicles. Grand Duke Vladimir Monomakh was cured of the lip cancer with the help of chaga (shelf fungus).

# VODOLEY

TEA BEVERAGE FOR HEALTHY KIDNEYS

## NATURAL ACTIVE COMPOSITIONZ

It has the properties beneficial for the kidneys and urinary tract: diuretic, anti-inflammatory, tonic, antispasmodic, antibacterial features.

- CHINESE GREEN TEA
- FENNEL (SEEDS)
- CARDAMON (SEEDS)
- GOLDEN ROD (EUROPEAN GOLDENROD) (HERB)
- DOORWEED (HERB)

There is a legend about a girl who gave her life to the gods in order to bring her lover back to life, and they turned her into a solidago (golden rod).

This bright lemon-colored plant is very popular among American Indians. They believed in its wound healing properties and used it as an analgesic and bacterial agent. The golden rod increases kidney secretion, balances the water-salt metabolism and acid-base balance of the body.

# Lux №03

## LUX

*Cleanliness and lightness*

### CLEANSING TEA BEVERAGE

#### NATURAL ACTIVE COMPOSITION

It has mild laxative properties and does not irritate the mucous membrane of the gastrointestinal tract.

- CHINESE GREEN TEA
- SENNA (LEAVES)
- LIQUORICE (ROOT)
- DOORWEED (HERB)
- CUMMIN (SEEDS)
- GOLDEN ROD (HERB)
- ALDER BUCKTHORN (BARK)

There is a legend that the laxative properties of alder buckthorn have become known thanks to the taliped tenants of the wood. These winter sleepyheads take to their den, having only evacuated their stomachs. One day, people saw that in late autumn, a bear uprooted the alder buckthorn bush from the ground and began to gnaw its bark. This gave the idea to the observers of the plant's healing properties. Since then, the alder buckthorn has allegedly taken a firm place among the medicinal plants.

# Valery №04

## VALERY

CALMING TEA BEVERAGE

### NATURAL ACTIVE COMPOSITION

It has properties that have a beneficial effect on the nervous system.  
It calms and relaxes.

- CHAMOMILE (FLOWERS)
- APPLE (DRIED FRUITS)
- MOTHERWORT (HERB)
- CINNAMON (BARK)

According to the feng shui principles, the yellow chamomile heart symbolizes vitality and strength, and the white petals are the symbols of cleansing and healing. A bouquet of cut chamomiles will help relieve stress and charge you with positive emotions.

# №05

## GREEN GOLD

ANTI-AGING TEA BEVERAGE

### NATURAL ACTIVE COMPOSITION

It is well-known for its antioxidant properties that help maintain youth and beauty. It helps to relieve fatigue, increase activity and performance. It has tonic and immunity-improving properties.

- GREEN TEA
- BUSH CINQUEFOIL (LEAVES)
- GOLDEN ROD (HERB)
- RED BILBERRY (LEAVES)
- GINGER (ROOT)
- LEMON (PEEL)

Sometimes people call the bush cinquefoil a mighty plant.

According to the most popular legend, Ilya Muromets, before the fight with the Solovei the Whistler-Robber, came to the swamp where the sorceress grew (one of the popular names for potentilla/cinquefoil) and clung to his native land in search of support. The Flower of Life then responded to Ilya's silent prayer. The Russian warrior suddenly felt immense strength in his hands, and incredible courage in his soul. This helped him to clear his native land from the evil spirits.

# Atlantea №06

## ATLANTEA

TEA BEVERAGE FOR JOINTS

### NATURAL ACTIVE COMPOSITION

It is well-known for its beneficial properties for joints:  
anti-inflammatory, pain relieving and regeneration stimulating  
features. It has antiseptic, anti-inflammatory  
and tonic properties.

- CHINESE GREEN TEA
- GOLDEN ROD (HERB)
- COMARUM (ROOT)
- DOORWEED (HERB)
- THYME (HERB)
- LEMON (PEEL)

An old legend tells how the doorweed once decided to go to the mountains. He wanted to become a hermit, since he was tired of being trampled on by everyone. However, he met a wise witch. She listened to him and said: «Doorweed, you shouldn't climb the mountains. There are only rocks, winds and frosts - you will be completely lost. It is better to go to the people and to the valleys, and there you will take vengeance for yourself. You will interfere with people and sprout everywhere». The doorweed obeyed the witch. However, it is bad luck: in no way can he interfere with people, despite its sprouting everywhere. The herds are on the doorweed brushes, the diseases are treated by this grass. Therefore, the doorweed got used to quietly living with people.  
This vigorous and powerful herb in a fragrant beverage gives strength to the joints, helps to expel salts and restores mobility.

TEA BEVERAGE FOR LIVER

## NATURAL ACTIVE COMPOSITION

It has properties useful for the liver: choleretic, anti-inflammatory, diuretic, antispasmodic features.

- CHINESE GREEN TEA
- MILK THISTLE (SEEDS)
- ANISE (SEEDS)
- DOORWEED (HERB)
- AGRIMONY (HERB)
- HARE'S EAR (HERB)

Milk thistle was mentioned 1000 years ago: the ancient Romans used it to treat hepatitis and hepatic cirrhosis. However, the use of this herb was intuitive. Only in 1968, at the Munich Institute of Pharmacy, the biochemical composition of milk thistle with the main component, silymarin, was determined. This rare biologically active substance, combining seven flavonoids and flavolignan, is one of the most studied substances of the 21st century; there are about 3000 published papers in the field of liver protection and treatment.

# Cardelis №08

## CARDELIS

TEA BEVERAGE FOR HEART AND VESSELS

### NATURAL ACTIVE COMPOSITION

It has the properties that are beneficial for the heart and blood vessels: it improves the heart rate, slows down the heart rate and increases the heart force, lowers blood pressure.

- HIBISCUS TEA
- HAWTHORN (BERRIES)
- MOTHERWORT (HERB)
- SWEET BRIER (FRUITS)
- ROWANBERRIES (FRUITS)
- MINT (LEAVES)
- MARIGOLD (PETALS)

One Russian legend says that there was one kind lady who helped everyone, while healing some people and giving advice to others. However, she also grew old, since no one is eternal. But she did not want to die. People treated by her did not want to lose their saviour and so went to a witch. So the witch turned the kind old woman into a bush called the hawthorn. The footsteps of the good lady were followed, and the bush fruits have since cured many human diseases.

Antitox

№09

# ANTITOX

ANTIOXIDANT TEA BEVERAGE

## NATURAL ACTIVE COMPOSITION

It has properties useful for body protection against toxins and oxidative stress: antimicrobial, choleric, tonic, anti-inflammatory, antiseptic features.

- GREEN TEA
- BUSH CINQUEFOIL (LEAVES)
- GOLDEN ROD (HERB)
- RED BILBERRY (LEAVES)
- THYME (HERB)
- ROSEMARY (LEAVES)

There is a legend about the origin of the evergreen red bilberry. One day, the swallow managed to get magical immortal water. She decided to bring this water to people to give them immortality. The swallow carried only a few drops in her mouth. However, the evil wasp did not want people to give She painfully stung the unfortunate bird, and she spilled precious drops on the ground. They fell on the branches of pine, cedar and red bilberry, and they remained green forever, embodying eternal life. Unfortunately, or maybe fortunately, this life was not given to people. Of course, the red bilberry will not give you eternal life, but its unique properties will help to prolong your life. Red bilberry has an antiseptic, diuretic effect, it reduces inflammation and is a powerful natural oxidant.

# DONNA BELLA

*female principle*

## TEA BEVERAGE FOR WOMEN'S HEALTH

### NATURAL ACTIVE COMPOSITION

It has the property to enhance the body's resistance to adverse effects. It is useful for women's health. It has diuretic, anti-inflammatory, antispasmodic and antiseptic properties.

- CHINESE GREEN TEA
- RHODIOLA QUADRIFIDA (RED BRISTLE) (ROOT)
- COMARUM (ROOT)
- CARDIAC MOTHERWORT (HERB)
- DOORWEED (HERB)
- FENNEL (SEEDS)

An old legend tells of a shaman who was able to heal women's diseases. One night he had a dream of an amazing butterfly that appeared to him. The shaman followed it and found an unprecedented plant, next to which he felt a surge of strength. In the morning, having repeated this path in reality, the healer found this grass that looked like a bristle. After the stream water turned red as a result of the root washing, the healer gave the name to the herb: a red bristle. Since then, this herb has been used to heal the female body.

# Gentleman №11

## GENTLEMAN

*Confidence and power*  
TEA BEVERAGE FOR MEN'S HEALTH PROMOTION

### NATURAL ACTIVE COMPOSITION

It is well-known for its tonic and stimulating properties. It helps to cope with exhaustion and fatigue. It has properties that contribute to men's virile strength and health.

- CHINDIAN BLACK TEA
- GINGER (ROOT)
- BAY WILLOW (LEAVES)
- CARTHAMOID RHAPONTIC (MARAL ROOT)
- SHELF FUNGUS
- COMARUM (ROOT)
- GOLDEN ROD (HERB)
- CULTIVATED ANGELICA (ROOT)
- SWEETVETCH
- PINE (SPROUTS)

The use of carthamoid rhapontic (maral root) has not been interrupted from the times of ancient Chinese, Tibetan and Mongolian medicine to the present day. There is a reason to believe that the maral root powder served as the basis for the phenomenal endurance of the troops of the Mongolian Genghis Khan. Even earlier, 1000 years before Columbus, it helped ancient Chinese to sail around the world on 300 vessels. At present, maral root is a part of the diet for the Olympic teams of Russia, China and the United States of America.

# Prana No 12

## PRANA

fight breathing

### TEA BEVERAGE FOR RESPIRATORY SYSTEM

#### NATURAL ACTIVE COMPOSITION

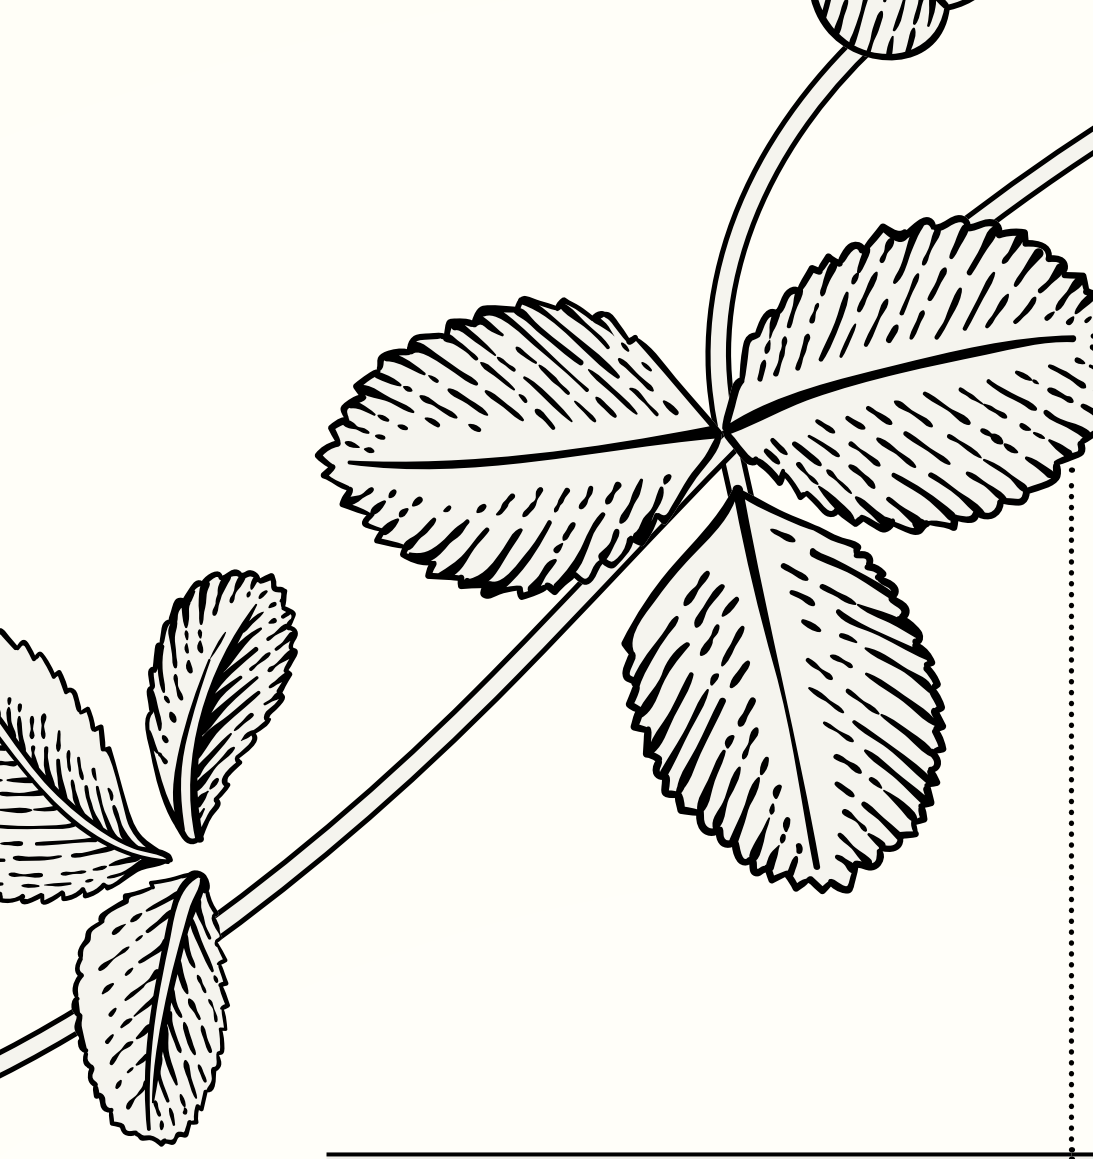

It has expectorant, anti-inflammatory, antitoxic and antiseptic properties.

- INDIAN BLACK TEA
- LIQUORICE (ROOT)
- ALLSPICE (SEEDS)
- ORANGE (PEEL)
- CARNATION (BUDS)

Liquorice has been known to Tibetan and Egyptian healers for over 5,000 years. The legends of the sweet root, the healing properties of which are compared to ginseng, are also found in the books of the ancient Greeks. Galen and Hippocrates called the plant the Scythian root. It is known that the Scythians, on whose territory the liquorice was grown, exchanged its healing roots with the Greeks for various goods and even gold jewellery. There is a legend that the liquorice root was worth its weight in gold.
