

GREEN
FLASH

Why do I need **Detox**?

«Overall cleaning» of the body

The comprehensive purification will help to get rid of accumulated toxins and restore functioning of the bowel, liver, and kidneys.

Strong immunity
Beautiful skin
Comfortable digestion

Preparatory stage for all health maintenance programs.

All active ingredients, vitamins and minerals are absorbed through the intestinal mucosa.

Increased efficiency
of active ingredients

Great start to the weight loss program.

The accumulated toxins often disturb metabolic processes in the body. As a result, the non-processed components are stored in the fat depots.

Significant reduction
in body measurements

GreenFlash Detox

Comprehensive body purification program. It launches a regular sequence of basic purification mechanisms, getting rid of the wastes and toxins in a stepwise fashion.

FLORACIA

**EACH
CAPSULE
CONTAINS**

Innovative dietary fibers

it is the first and only synergistic combination of two well-known types of naturally soluble dietary fibers:

**acacia-based long-chain
polysaccharides**

**inulin short-chain
oligosaccharides**

FLORACIA®

- ✓ Low molecular weight
- ✓ Instant degradation in the intestines

- ✓ Highly efficient prebiotic
- ✓ Stimulation of their own beneficial microflora development

DETOX
FORMULA

КИШЕЧНИК
Активные компоненты
способствуют очищению
кишечника

PHASE
1

DETOX
FORMULA

ПЕЧЕНЬ
Активные компоненты
способствуют очищению
печени

PHASE
2

FORMULA

ПОЧКИ
Активные компоненты
способствуют очищению
почек и снятию отеков,
поддерживают
баланс калия

PHASE
3

DETOX
FORMULA

БАЛАНС
МИКРОФЛОРЫ
Активные компоненты
способствуют
улучшению пищеварения,
нормализации
микрофлоры

PHASE
4

PHASE
3

Активные компоненты
способствуют
улучшению обмена
веществ, снижению
отеков,
поддерживают
баланс калия

STEP 1 ▶ COLON

Mild
laxative
action

Elimination
of wastes
and toxins

Digestion
regulation

Active ingredients

Aloe

Plantain

Fennel

FLORACIA®

STEP 2 ▶ LIVER

Mild
choleric
action

Elimination
of toxins

Liver
enhancement

Active ingredients

Turmeric

Ginger

Mint

Lemon

Green tea

FLORACIA®

! Turmeric extract stimulates the production
of liver enzymes activating good
● food digestion

STEP 3 ▶ KIDNEYS

Mild
diuretic
action

Elimination
of edema

Prevention
of potassium
wash-out

Prevention
of kidney stone
formation

Active ingredients

Potassium

Opuntia

Garden
cress

Horsetail

Artichoke

FLORACIA®

! Potassium citrate enhances urine flow, accelerates the elimination of toxins and reduces oedemata.

● Regulation of fluid balance in the body.

STEP 4 ▶ MICROBIAL BALANCE

Digestion
improvement

Strong
immunity

Microflora
normalization

Active ingredients

Chamomile

Fennel

Mint

Bifidobacteria

Lactobacteria

FLORACIA®

! The toxins and metabolic products are removed through the intestines. When the gut flora is weakened, the toxin removal is worsened. →

Lacto- and Bifidobacteria improve bowel function.

They improve the environment for «own» bacteria and bring in «good» bacteria.

Dull facial color, dry skin and skin disorders, acne

Disturbed bowel function leads to body intoxication. It tries to remove toxins from the blood by expelling them through the skin.

Detox ensures toxin removal, microflora enhancement, and improvement of the excretory system functioning. Clean bowels lead to flawless skin.

Intestinal issues, excess weight, water retention

Body waste inhibits metabolism by increasing fat stores and preventing fluid circulation

Detox gradually launches the natural processes of cleansing the bowel, liver, kidneys, ensuring their stable functioning, and eliminating the excess substances. Your body measurements will be reduced.

Low immunity

About 70% of human immunomodulatory cells are located in the gastrointestinal tract.

Detox Step 4 contains a complex of Bifidobacteria and Lactobacteria to maintain a healthy microflora, preserve and support the immune cell functioning

No effect from taking vitamin complexes

The sluggy bowel does not allow vitamins to be absorbed through the mucous membrane

Detox Step 1 gently cleanses the intestinal mucosa, vitamins are absorbed faster and work more efficiently

Boost energy and strength for an active life!
Supplement your Detox program with vitamins!

Multivitamin formula GreenFlash

It helps to restore the balance of beneficial micronutrients. After body detoxification, vitamins are better absorbed and the complex efficiency is significantly increased.

**Significant
physical exertion
Regular training
sessions in the gym
Joint discomfort**

Potent natural chondroprotective agents and active components that stimulate collagen synthesis in the cartilaginous tissues, provide intensive regeneration of joints and ligaments, help to relieve inflammation, and ensure rapid muscle recovery after physical exercises.

FLEX BOX

**You feel the first
symptoms of a cold
You don't want to get sick during
the virus rampant period**

It is important to maintain the body's natural protection, and not only to deaden the cold symptoms. Natural ingredients will help to strengthen the immune system, cope with viruses and quickly return to the usual pace of living.

IMMUNO BOX

**Dry dull skin
Fragile nails
Frayed dry hair
Excessively greasy hair**

The active ingredients will help to stay young and maintain skin water balance, strengthen hair and nails, and help to cope with the daily stress that guarantees an excellent appearance.

BEAUTY BOX

**Skin disorders and acne
Intestinal issues, excess
weight, water retention
Low immunity
No effects on vitamin
complexes**

It is important to perform an «overall cleaning» of the body once every six months. Vitamins are absorbed more actively through clean intestinal mucosa, leading to increased efficiency. The absence of toxins and waste provides clean skin and stable functioning of the gastrointestinal tract without the stagnant substance accumulation in the fat storage area. Bifidobacteria and Lactobacteria support the functioning of the immune cells.
