

Be Loved ^{SPF 50}

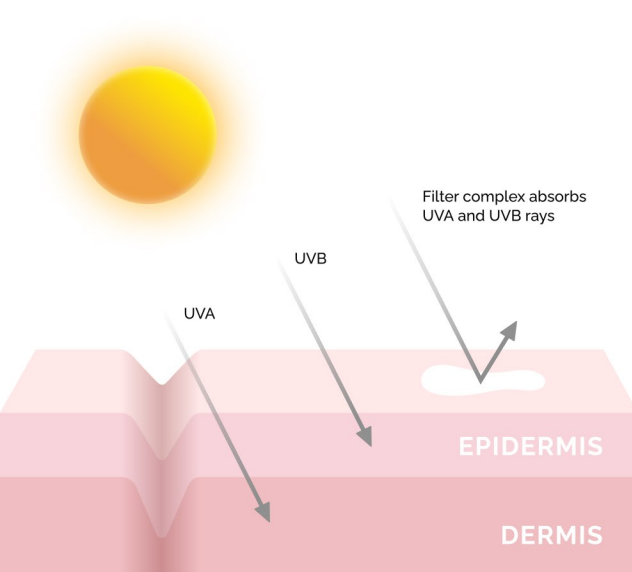

Sunscreens for face and body

Be Loved

Creams help your skin adapt to sunbathing by increasing the amount of time you can safely spend in the sun.

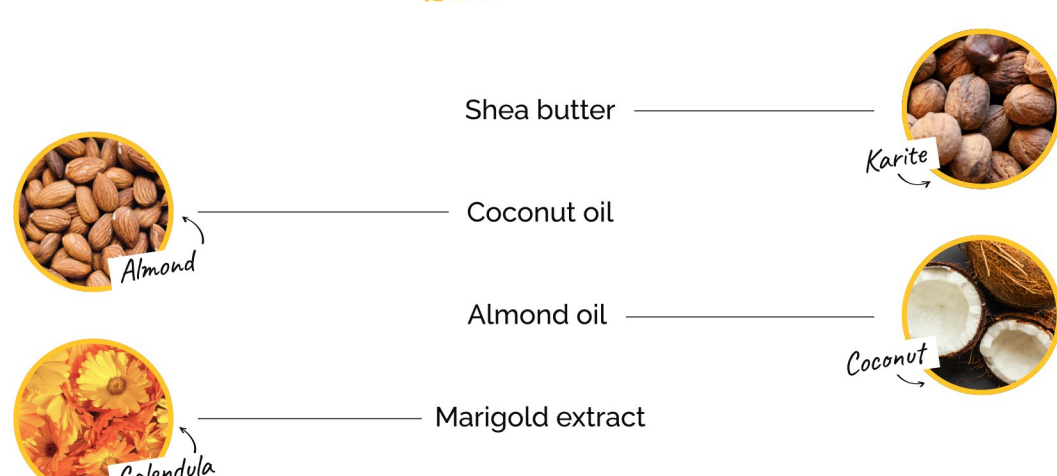

The complex combination of chemical and natural filters together with vitamins C and E is a completely safe protective agent for your skin.

CHEMICAL FILTERS IN CREAMS:

- Activated by exposure to ultraviolet light.
- Absorb the sun's radiation, blocking its penetration inside.

NATURAL SPF FILTERS

CREAMS

Be Loved. Be Sun:

With care for you ♡

- Protect against UVA and B spectra.
- Easy to apply and absorb quickly.
- Leave no white spots or stickiness, including on clothing.
- Soothe, moisturize and nourish the skin.
- Resistant to sweat.

- Protect against HEV radiation (smartphone screens, computers).
- Resistant to physical impact (contact with a towel, water, etc.).
- Protect against premature aging.

Body Cream

SUNSCREEN FOR THE BODY
