

# Guide for cleaning with Fineffect

Fineffect is the perfect one-touch cleaning formula.

Innovative microfiber Profiber

+

Unique composition of cleaning products

=

MAXIMUM RESULT

## Fineffect cleaning products

Household chemicals concentrates

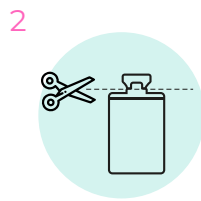

Reusable vials for each concentrate

## PRODUCT PREPARATION:

Fill the vial ½ full with room temperature water

Cut off the neck of the concentrate bottle

Add the concentrate in the vial

Fill with water up to the neck

Stir the product several times by turning the closed vial upside down

## IMPORTANT:

- 1 In a vial with a foam dispenser, the restrictor must be removed before use. →

- 2 Hand foam and dishwashing foam work with a foam dispenser only. →

For the formation of foam, it is necessary to dilute in the correct concentration (1 concentrate of 50 ml per 450 ml of water).

- 3 Unscrew the spout of the vial with dispenser before use, adjust to the desired degree of dispensing: from a narrow spray to a wide cloud of fine droplets. →

- 4 Reusable vials. After the product finishes, rinse and dry the vial. Then prepare a new solution in it. →

- 5 For delicate surfaces, it is recommended to test the product on a small inconspicuous area. →

## TIPS FOR USING WIPES:

- 1 Wipe any surface, especially a glossy one, with a wipe moving up and down and right and left. Circular movements can leave streaks.

- 2 It is necessary to wash the wipe before the first use.

- 3 After each use, the wipe needs to be rinsed and dried. Do not dry wipes on heating devices.

- 4 Wash as needed by hand or in a washing machine at a temperature no more than 40°C without conditioner, with chlorine-free detergents.

- 5 Do not leave wet wipes on light-colored furniture, furniture made of natural materials.

- 6 The average lifespan of a wipe when the conditions of use are met is 3 months.

# KITCHEN

## 1.1 Kitchen fronts and tabletops

Wipe Superfiber  
Wipe Multi-effect

Home

- 1 For daily cleaning, apply Home cleaner to the Superfiber wipe and rub the surface with it.
- 2 In case of heavy dirt, apply Home cleaner on the dirt using the dispenser, leave for 3-5 minutes, rub with a Multi-effect wipe (hard side down).

### IMPORTANT!

- Do not leave on non-water-resistant surfaces: natural wood, veneers, etc.

## 1.2 Sinks, faucets

Wipe Superfiber  
Wipe Polish  
Wipe Multi-effect

Home

- 1 For daily cleaning, apply Home cleaner to the Superfiber wipe and rub the surface with it.
- 2 In case of heavy dirt, apply Home cleaner on the dirt using the dispenser, leave for 3-5 minutes, rub with a Multi-effect wipe (hard side).
- 3 To make the faucets shine after cleaning, polish them with a Polish wipe.

## 1.3 Household appliances

Wipe Universal  
Wipe Multi-effect

Home

- 1 Apply a small amount of Home cleaner using the dispenser on a Universal wipe, rub the appliances.
- 2 In the case of heavy dirt on the plastic housing of household appliances, you can apply the dispenser directly to the dirt. After 2-3 minutes, remove the solution with a Multi-effect wipe (hard side down).

## 1.4 Cooktop (electric, hob, glass-ceramic)

Wipe Multi-effect

Home

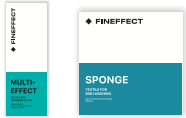

- 1 Apply the product to a wipe using the dispenser and clean the dirt on the surface of the cooktop.
- 2 In the case of heavy dirt, it is possible to apply the product directly to the dirt and soak for a few minutes.

### IMPORTANT!

- Do not use hard wire sponges to clean stoves: they slowly but surely scratch enamel, stainless steel and other modern coatings. The best choice is the Multi-effect wipe.

## 1.5 Kitchen hood

Wipe Multi-effect  
Sponge

Home  
Gloss Plus

- 1 Apply Home cleaner using the dispenser on the grids and hood body and wipe off with a cloth.
- 2 In case of heavy dirt, remove and soak the grids in a warm solution with Home cleaner (50 ml per 1 liter of water). Oily dirt can be removed with the Gloss plus dishwashing foam and with the hard side of the sponge.
- 3 Remove any remaining cleanser with a clean, damp wipe.

## 1.6 Dishes and cutlery

Wipe Polish  
Sponge

Gloss Plus

- 1 Apply the foam from the dispenser to the sponge.
- 2 Wash the dishes with a sponge, rinse off the foam and dirt with water.
- 3 Polish dried dishes and cutlery with a Polish wipe to make them shine.

### IMPORTANT!

- After applying the foam to the sponge you do not need to wet it again!

## 1.7 Dishes for pets

Sponge

Gloss Plus

- 1 Apply the foam from the dispenser to the sponge.
- 2 Wash the dishes with a sponge, rinse off the foam and dirt with water.

## 1.8 Fruits, vegetables

Gloss Plus

- 1 Apply the foam to your hand or sponge, wash fruits and vegetables, rinse with water.

# BATHROOM

## 2.1 Bathtubs and sinks

Wipe Multi-effect

Home

1. Sprinkle the surface with Home cleaner. In case of heavy dirt, leave the cleaner on the surface for a few minutes.
2. Clean the surface with a Multi-effect wipe.
3. Rinse off dirt and cleaner residue with water.

## 2.2 Toilet bowl

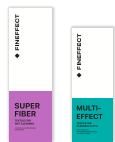

Wipe Multi-effect

Home

1. Apply Home cleaner to the inside of the toilet bowl, scrub with a brush, rinse off with water.
2. If necessary, apply the cleaner to the lid, seat and the outer surface of the toilet bowl, rub with a Multi-effect wipe.

## 2.3 Tile

Wipe Superfiber  
Wipe Multi-effect

Home

1. For regular cleaning, apply Home cleaner to the Superfiber wipe using the dispenser and clean the surface.
2. To remove heavy impurity, spray the cleaner on the tiles, leave for a few minutes, remove with a Multi-effect wipe using its hard side, if needed.

## 2.4 Glasses, mirrors

Wipe Shine

Brilliance

1. Apply Brilliance cleaner on a Shine wipe, polish glasses and mirrors.
2. In case of dirt, apply the cleaner to the dirt and remove it with a wipe.

# BATHROOM

## 2.5 Washer

Wipe Universal  
Wipe Shine

Home

- 1 Remove the detergent container from the washer and rinse in Home solution (50 ml per 1 liter of water). Rinse under warm water. In case of heavy soiling, you can pre-soak the containers (for powder) for 10 minutes in Home solution.
- 2 Spray the wipe with Home solution. Wipe the housing, control panel and drum of the washer with it.
- 3 Wipe the glass door with a Shine wipe.
- 4 Run the machine through a full wash cycle at 60°C.

### IMPORTANT!

- Before cleaning the washing machine, unplug it from the power supply.

## 2.6 Shower

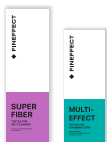

Wipe Multi-effect  
Wipe Shine

Home  
Brilliance

- 1 Clean the chrome and plastic parts with a Multi-effect wipe soaked in Home cleaner.
- 2 Clean the glass doors of the shower with a Shine wipe soaked in Brilliance cleaner.
- 3 In case of heavy dirt on glass and plastic, leave the cleaner on the surface for a few minutes without drying out, then rub it with a wipe.

## 2.7 Pets inventory

Wipe Superfiber  
Wipe Multi-effect

Home

- 1 Prepare a solution as 50 ml Home cleaner per 1 liter of water. Immerse small items entirely in the solution and wash all sides with a Superfiber wipe.
- 2 Rinse thoroughly with clean water.
- 3 If the size does not allow you to immerse the pets inventory in a container with the solution, sprinkle the surface with Home cleaner, rub with a Superfiber wipe.
- 4 Wipe thoroughly with a clean wet wipe.

## 3.1 Furniture

Wipe Universal Plus

Home

- 1 Apply a small amount of Home cleaner using the dispenser on a Universal Plus wipe, rub the appliances.

### IMPORTANT!

- You do not need to wash Home cleaner off the surface.

## 3.2 Linoleum, porcelain tiles, laminate, parquet

Wipe Floor

Home

- 1 Prepare a solution for cleaning the floor, 50 ml of cleaner per 5 liters of water. Clean the floor with a Floor wipe as usual.

### IMPORTANT!

- Be aware that parquet and laminate are vulnerable to moisture, so they only need to be wiped with a damp wipe soaked in a prepared solution.

## 3.3 Carpets

Sponge

Home

- 1 To clean fresh stains from carpets and rugs, you must first remove the dirt mechanically.
- 2 Spray Home cleaner to the stain, covering 2 cm around it, and lather the cleaner on the carpet. Leave for 10-15 minutes to allow the cleaner soak in, but not dry out.
- 3 Collect the stain with a sponge, moving from the edges to the center.
- 4 Wet a clean sponge with clean or sparkling mineral water and wash away dirt and cleaner residue. To avoid streaks, you need to rinse everything thoroughly with clean water.
- 5 Dry the stain spot. Do not walk on a wet carpet.

## 3.4 Windows

Wipe Multi-effect  
Wipe Shine

Home  
Brilliance

- 1 Remove dust and dirt from the frames and windows with a wipe soaked in water. Apply Home cleaner to a Multi-effect wipe using the dispenser, wipe the frames, in case of heavy dirt, spray the cleaner directly on the plastic, leave it for a few minutes, rub it with a wipe.
- 2 Spray Brilliance cleaner onto the windows and rub dry with a wipe.

### IMPORTANT!

- When wiping the windows, the movements should be up and down or right and left. To avoid streaking, do not use circular movements.

## 3.5 Radiators

Wipe Multi-effect

Home

1. Prepare a solution of 50 ml Home cleaner per 5 liters of water, and having the Multi-effect wipe periodically dipped in the solution, wash the front side of the radiators.
- 2 Clean the backs of the radiators with the hard side of a wipe.
- 3 To remove heavy soiling, apply Home cleaner with an undiluted solution using the dispenser, leave it for a few minutes, rub with a wipe and rinse.

### IMPORTANT!

- Before cleaning the radiator, place a Floor wipe underneath it to avoid getting the floor wet.

## 3.6 Household appliances

Wipe Universal

Home

- 1 Apply a small amount of Home cleaner using the dispenser on a Universal wipe, clean the appliances.

### IMPORTANT!

- You do not need to wash Home cleaner off the surface.

## 3.7 Screens of TVs, laptops, tablets

Wipe Soft

Brilliance

- 1 Apply a small amount of Brilliance cleaner to a Soft wipe using the dispenser and clean the screens.

## 3.8 Chandeliers, lamps, sconces, decorative objects, musical instruments

Wipe Soft  
Wipe Polish

Brilliance

- 1 Apply a small amount of Brilliance cleaner to a Soft wipe using the dispenser and wipe the decorations.
- 2 Polish glossy items with a dry Polish wipe for shine.

### IMPORTANT!

- When using the cleaner, be aware of the water resistance of the surface, do not use household chemicals or water when cleaning paintings, objects painted with non-permanent dyes, etc.

## 3.9 Sports equipment

Wipe Universal

Home

- 1 Spray Home cleaner onto the surface.
- 2 Wipe with a clean Universal wipe.

## 4.1 Fabric covers

---

Sponge

Home

- 1 Apply the cleaner to the stain, leave it for 3-5 minutes, lather on the surface with a sponge, rinse thoroughly with water to avoid streaks.

## 4.2 Leather cases

---

Wipe Auto

Home

- 1 Apply the cleaner to an Auto wipe using the dispenser, wipe the cases.

## 4.3 Control panels

---

Wipe Auto

Brilliance

- 1 Apply the cleaner to an Auto wipe using the dispenser, rub the surface.
- 2 In case of heavy dirt, spray the product directly on the dirt, leave it for a few minutes and rub with a wipe.

## 4.4 Glasses, headlights

---

Wipe Auto  
Wipe Polish

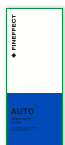

Brilliance

- 1 Apply the cleaner on an Auto wipe, clean glasses and headlights. Use a dry Polish wipe for high gloss polishing.

## 4.5 Car body

---

Wipe Auto

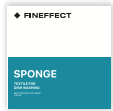

Home

- 1 Apply the cleaner to an Auto wipe using the dispenser, rub the surface.
- 2 In case of heavy dirt, spray the product directly on the dirt, leave it for a few minutes and rub with a wipe.

# CLOTHING, SHOES, JEWELRY

## 5.1 Suede shoes

Sponge

- 1 Use a dry sponge to keep your suede shoes fresh and clean by running the sponge against the lint.

## 5.2 White shoe soles

Wipe Multi-effect

Home

- 1 Spray the cleaner on the sole, leave it for 2-3 minutes, rub it with the hard side of the Multi-effect wipe.

## 5.3 Bijouterie

Wipe Soft

Brilliance

- 1 Dilute a solution of 50 ml Brilliance cleaner and 100 ml of water in a glass.
- 2 Pour the solution into a glass, lower jewelry, stir with a spoon.
- 3 Leave for 10 minutes.
- 4 Remove jewelry, rinse with water.
- 5 Dry jewelry, placing them on a wipe.

## 5.4 Children's toys

Sponge

Gloss Plus

- 1 Apply the foam from the dispenser to the sponge.
- 2 Wash the toys with the sponge, rinse off the foam and dirt with water.

### IMPORTANT!

- After applying the foam to the sponge you do not need to wet it again!

## 5.5 Eyeglasses

Wipe Soft

Brilliance

- 1 Apply a bit of Brilliance cleaner to a Soft wipe using the dispenser, clean the glasses with the wipe.

## 5.2 Metal watch straps

Wipe Soft

Brilliance

- 1 Put the watch on a wipe.
- 2 Spray Brilliance cleaner on the bracelet and leave it for 3-5 minutes.
- 3 Wipe the bracelet with a clean dry Soft wipe.
- 4 Repeat if necessary.
